Invest Vault

Bridging the Gap Between Investors and Innovators

Team Name : Squad_404
Team Leader Name : Jatin Vishwakarma
Domain : Miscellaneous
College : Walchand College of Engineering, Sangli

PROBLEM OVERVIEW

Problem Statement

- Today, thousands of startups and small businesses have strong ideas but fail to get **funded**, not because they lack potential, but because they lack access to the right investors.
- On the other side, **investors** want to invest but struggle to find trustworthy, well-explained, and relevant opportunities.
- The funding ecosystem is fragmented, **complex, and intimidating, especially for first-time founders** and new investors who don't understand financial jargon or processes.

Our Solution: Invest Vault

- Invest Vault solves this gap by creating a single, trusted platform where fund seekers and **investors meet with clarity** and confidence. It acts as a bridge that not only connects both sides but also educates them using AI-powered guidance.
- Through intelligent recommendations, a transparent bidding system, and secure account management, **Invest Vault** simplifies fundraising and investing, making it accessible, informed, and fair for everyone, from beginners to experienced investors.

Why This Matters

Invest Vault doesn't just connect money with ideas, it builds trust, understanding, and smarter decisions in the funding journey.

SOLUTION OVERVIEW

The Opportunity

- Massive gap between SMEs seeking funds and investors looking for verified opportunities
- Early-stage founders lack visibility & access to the right investors
- New investors avoid investing due to complexity, fear, and lack of guidance

How Is Invest Vault Different?

- AI-guided platform, not just a listing website
- Direct SME–Investor bridge with no unnecessary middlemen
- Competitive bidding system ensures fair valuation & transparency
- Beginner-friendly: learning and investing happen together
- Secure & trusted via Firebase authentication

How Does It Solve the Problem?

- Matches right investors with right SMEs using preferences & AI
- Simplifies finance concepts through an AI fintech mentor
- Reduces risk with AI recommendations & structured data
- Builds trust through verified users & transparent bidding

Invest Vault turns complex investing into a clear, guided, and trusted experience.

LIST OF FEATURES

AI CHATBOT

Explains investing, startups, risks, and platform usage in simple language

STRUCTURED SME PROFILES

Clear business details, funding needs & growth potential for informed decisions

SCALABLE & FUTURE-READY PLATFORM

Designed to support SMEs, startups, and global investors at scale

AI-BASED SMART RECOMMENDATIONS

Suggests suitable SMEs based on sector, risk appetite & investment goals

SECURE AUTHENTICATION & USER MANAGEMENT

Firebase-powered login, account creation & data security

DIRECT SME–INVESTOR BRIDGE

Connects startups/SMEs and investors without unnecessary intermediaries
